2025.123 Quickline

To receive updates in relation to the Quickline installation in the parish.

The Clerk had attended an online presentation by Quickline in relation to the roll-out of Project Gigabit and the provision of fibre broadband to homes which may not have been connected by the mainstream providers.

The Clerk noted that the installation of poles doesn't follow the usual Planning process, and the Parish Council isn't consulted on these installations. Instead, notices are placed near to the intended site and residents should object directly to the telecommunications company if they are dissatisfied with the proposed location.

It is important to submit objections before the installation takes place, as an appeal after installation is less likely to be upheld.

Further information is available on the [ERYC website](#).

Note: Cllr Morgan did not participate in the discussion on this item

The Clerk noted that the recently-introduced Assertion 10 (part of the 2025-26 AGAR) may require all members of a parish council to use e-mail addresses which are on an authority-owned domain.

ACTION: Clerk to look into the cost of e-mail addresses for the full Parish Council
